Little bit too short  
Par Public Different  
I really enjoyed reading this book and it took me just some hours to finish it. It's pretty short, that is why I put only four stars. I think Janet should do as we musicians do - go digital and cut the price :) It will give the book five stars.  
To make story short: author covers cover explain you how to write press release and make it catchy, how to spread it online (difference between payable and free services), how to use SEO and some other tips and tricks.  
Highly recommended for novice entrepreneurs embracing Web opportunities.
